

Getting Started On Guitar

These exercises introduces chords to the left hand and finger picking to the right hand. Fingers of the right hand are indicated with *p* (thumb), *i* (index), *m* (middle), *a* (ring), and *c* (little finger). All right hand pima fingerings are played successively except those that are vertically aligned, which are played simultaneously. Strings marked with an 'x' are not played and those marked with an 'o' are played with the right hand but not touched with the left hand. Play each exercise on each chord until it is clean and steady.
